Overview:

Join us for this exciting 1 day tour of the north western mountains of Eswatini which many consider to be the most beautiful area of the country for an action packed adventure. This tour begins in Ezulwini and passes the capital Mbabane before descending into Pine Valley where you'll have a chance to see Sibebe Rock which is the second largest exposed rock in the world (after Uluru). From there the tour takes a gravel road deep into the rural hills before a gentle meander down the famous Komati Valley where you'll have a quick tour of Maguga Dam. You'll then head west for the impressive mountain ranges of Malolotja Nature Reserve which is one of Eswatini's true wilderness areas. The reserve offers good game viewing and incredible views into breath-taking mountain scenery before your canopy tour commences.

On arrival in Malolotja it's time for Zip-lining! You'll be given a full safety briefing and all the gear you need before jumping into an open game viewing vehicle which will transport you to the start point. A short walk takes you to the first of 10 cables which range between 10 and 130 meters in length. You'll have a short practice run on the first cable and then it's onto the main cables which zip you at fantastic speeds over an incredibly beautiful gorge providing the perfect mixture of fun and adrenalin. Throughout your adventure you will be attached to safety cables and your specially trained guides ensure you are safe. Zip-lining offers an incredibly unique and exciting way to explore the tops of tall trees, cliff edges and hidden gorges, places you would never normally see. This tour is likely to be the highlight of anyone's trip to Eswatini!
