VOLUNTEER ROLE

There are 3 distinct parts to this travel experience each with its own interesting flavor.

In Kruger, you will be joining a camping safari holiday. Here your days will be spent on game drives searching for the incredibly diverse wildlife that this world-renowned national park has to offer, while at night you will be camped out under the African stars, sitting around a crackling campfire listening to tales of the African bush. While In Kruger, your guide will teach you about the animals and plants of the African Savannah and how important it is to protect this beautiful but fragile Eco-system.

When you arrive in the beautiful mountainous Kingdom of Eswatini your role will switch to volunteer as you get involved in projects that aim to uplift the lives of orphaned and vulnerable children.

Volunteers have the option of choosing the following projects:

Childcare which involves assisting the teachers at our Neighbourhood Care Points (NCP's), which act as pre-schools for orphaned and vulnerable children (6-week option only)

Building which involves projects such as laying bricks for new classrooms or maintaining the gardens at our NCP's

Sports which includes assisting with running sporting activities with our NCP children including swimming, dancing and other fun games!

NEW! Savannah & Wildlife Conservation this project involves conducting multiple types of research with different species. Some of the conservation activities are

conducted at specific times of the year whilst others are conducted all year round. Our coordinating project scientists will teach you how to assist with data collection throughout your project duration.

The final week of your experience is spent on the beautiful golden sand beaches of sunny Mozambique. After two weeks of hard work in Eswatini it'll be time to relax in this tropical climate and swim the blue waters of the warm and inviting Indian Ocean. Mozambique is a colorful and vibrant African country like no other and it is here that you will get to spend the last days of your trip - a wonderful finale to an inspiring tour.

* Please note that the activities listed above are based on availability and may vary by season. These are samples of activities that are volunteers are likely to participate in.

IMPORTANT NOTE: When you work with children, you will be in the rural areas where modesty will be an important factor. Please make sure you dress appropriately- failure to do so may result in you missing a day of volunteering. More information about the dress code will follow in the pre-flight guide.

WHERE YOUR PROJECT FEE GOES

By signing up with us you are donating your time and skills to work directly with communities in need through a structured project. There are many benefits of volunteering with an organization like ours. Sometimes it is hard to find projects to support in a foreign country that are safe, worthwhile and reputable. When you sign-up for one of our projects for 2 or 12-weeks, you become part of a bigger, sustainable plan that our team of qualified staff has carefully crafted. You will also receive travel and visa support, orientation, a safe place to stay, logistical support, in addition to clear expectations of the work you will do. This is why we charge a fee for volunteering or interning abroad.

During this time you will also be supported to obtain your visa to enter Mozambique (the cost of a visa is not included in the program cost) and will also visit the Mantenga Cultural Village where you will have the chance to experience traditional Swazi culture and lifestyle as well as witness traditional dancing and singing. biggest fish - the Whale Shark. With diverse coral reefs, Whales, Manta Rays, dolphins and nesting turtles Tofo is a marine paradise and yet it is relatively close to the vibrant historic trading port of Inhambane.
